Vasudev Siddh

AI & Full-Stack Engineer

India / siddhvasudev1402@gmail.com
siddhvasudev.com / github.com/vasu-devs / linkedin.com/in/vasu-devs

AI engineer who builds production voice agents and LLM systems, from prototype to tested release. Creator of JustHireMe (2,249★ open source).

EXPERIENCE

AI Engineering Intern / withlayer.ai

Jun 2026 - Present

- Use Python, TypeScript, React, Next.js, and WebRTC to build real-time voice AI, so users can hold natural, low-delay conversations with an AI assistant.
- Add automated evaluations and regression tests so LLM changes are checked before they reach users; build data-access controls that limit who sees which data.

AI & Full-Stack Engineer (contract) / Confidential client

- Rebuilt an AI assistant backend and took it to production; golden-eval pass rate improved from 32/54 to 52/54.
- Reduced time to first results from 72–122 s to under 10 s.
- Reduced search latency from 10.6 s to 53 ms.
- Built a multi-million-vector retrieval index answering in ~15–21 ms.

SELECTED PROJECTS

JustHireMe / Creator / Open source

Tauri / Rust / React / Python / FastAPI

- Built a local-first job-intelligence desktop app; 2,249★ open source.
- Shipped 102 releases with 620 backend tests; the launch reached 380K views.

Svara / Open source / On-device dictation

Python / faster-whisper / CUDA

- Built fully on-device dictation with 8.33% WER on CPU.
- Streamed speech into text with 754 ms to first word.

Fintech P&L platform / Freelance / Confidential client

- Built solo in 18 days with 5 payment/commerce integrations.
- Delivered ~4,500× faster attribution and recovered 641 orphaned orders.

TECHNICAL SKILLS

Languages & applications: Python, TypeScript, JavaScript, SQL, React, Next.js, FastAPI, Node.js

AI & data: Machine learning, large language models (LLMs), retrieval-augmented generation (RAG), LangGraph, embeddings, vector search, voice AI, PostgreSQL, MongoDB

Engineering: Docker, AWS, GitHub Actions, CI/CD, automated testing, AI evaluations, Git, REST APIs

EDUCATION & RECOGNITION

Bachelor of Technology (B.Tech), Computer Science & Engineering

Lovely Professional University, Punjab / 2023 - 2027 (expected) / CGPA: 8.59

Smart India Hackathon 2025 semifinalist (PolySEE team). Oracle OCI AI Foundations Associate; NPTEL coursework in Deep Learning and Machine Learning. Open-source contributions to kana-dojo, animated icons, and free-programming-books.
